DETAILED ACTION

Claims 16 and 36 are currently pending in the instant application and are allowable over the prior art of record. Upon reconsideration, the 35 USC 112 first paragraph rejection of claims 16 and 36 is withdrawn.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to a method of lowering serum triglycerides in a mammal comprising administering to a mammal in need thereof an effective amount of the formula as found in claim 36. The present specification provides enablement for the lowering of serum triglycerides in a mammal by the disclosure that the compounds recited in the claims are FXR agonists and that administration of such compounds can reduce serum triglyceride levels in mammals. Furthermore, example 5 provides support for the lowering of serum triglycerides in mammal, see example 5 (pages 25-28, particularly page 28, lines 4-10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
